Opvolgingsvlag: Opvolgen
Vlagstatus: Met vlag

Dear [REDACTED]

Thank you for your response. Here are my responses to the clarifications requested:

1. I am referring to both the number of applications in Studielink as well as how many students have received a decision, whether acceptance or rejection.
2. Yes, please.
3. Admitted students who have not started the program can be included separately. If this is difficult for you, they can be excluded from the calculation.

Yours sincerely,
[REDACTED]

Dear [REDACTED]

Your request information under the *Wet open overheid* (Woo, Open Government Act) has been forwarded within our organization to the relevant programmes. From these programmes, we have received the following questions regarding the implementation of your request:

1. The request asks for an overview of the number of applications per study/specialization, both rejections and admissions. Does this refer to the number of application's in *Studielink*, the number of files submitted by (prospective) students to determine their eligibility, or only the number of students who have received a decision?;
2. Should students who transition directly from a Bachelor's program also be included in the overview?;
3. The totals of admitted/non-admitted Master's students can give a distorted picture because not all admitted students have actually started the respective program. What kind of information do you wish to receive in this regard?

In view of the above, I request you, pursuant to Article 4.1, Paragraph 5, of the Woo, to further specify your request by answering the above questions. I request you to provide the requested information no later than 21 February 2024, via the email address mentioned at the top of this letter. For the sake of completeness, I would like to point out that this request for clarification suspends the decision period mentioned in Article 4.1, Paragraph 1 of the Woo.
